

CENTRAL KYC REGISTRY

CKYC/2019/08

Date : December 16,2019

To: All entities registered with Central KYC Registry (CKYCR)

Dear Sir / Madam,

Sub: Uploading of last 04 digits of Aadhaar Number in Central KYC Registry

This is in reference to the masking and uploading of Aadhaar Number in the Central KYC Registry as directed by the sub-committee of regulators.

Aadhaar masking in Upload, Download, Update & Search of CKYCR records

- a. Only the last four digits of the Aadhaar Number {where Aadhaar has been used for carrying out Customer Due Diligence (CDD) of the customers} instead of 12 digits Aadhaar Number shall be required along with demographic details and the form in which Aadhaar has been used for CDD i.e. e-KYC authentication, Offline Aadhaar or e-Aadhaar/Aadhaar letter, when uploading and/or updating a record with effect from January 03, 2020. Consequently, the first 8 digits of the Aadhaar Number shall be blackened out or masked by the uploading/updating entity while uploading the Aadhaar Document onto CKYCR. The change will impact Screen and File based requests for Upload and Update (Annexure-I).
- b. Accordingly, Search and Download based on Aadhaar Number will be performed using a combination of Name of applicant, Date of birth, Gender and the last four digits of Aadhaar Number instead of 12 digits with effect from January 03, 2020. The change will impact the following:
 - I. Screen and File-based Search (Annexure -I)
 - II. Search and Download API (Annexure -I)
 - III. Screen and File based responses for Download (Annexure -I)

For any queries/clarifications please contact the helpdesk.

For and on behalf of **Central KYC Registry**
