

## Central KYC Registry Notification

### Subject: Enhancement to the periodic response file

Dear Sir / Madam,

Greetings from Central KYC Registry!

1. There are new statuses being introduced in the update flow as a result of which, additional values are being introduced in the periodic response file (version 1.2 only). Reporting entities are required to take note of the same and make the requisite changes to their systems.

These changes have currently been deployed on the test environment and will be released in the production environment on June 29, 2018.

Please access the file format under 'File Structure and Sample Files' in the download section of the CKYC website.

2. Periodic response file version 1.2 was introduced in May 2017 and institutions were requested to migrate to the latest file format at the earliest. The CKYC application has been in parallel been supporting both version of the files to allow seamless transition.

The earlier periodic response file (version 1.1) will be discontinued on July 06, 2018. Institutions are requested to migrate to the latest version of the file before this date.
